Workplace Emergency Plan for Mobility-Impaired Persons

1. For fire and/or emergency safety planning purposes, mobility-impairment is a physical or medical disability which would prevent that person from descending the stairs in an evacuation situation at a rate of speed consistent with the normal flow of other building occupants, or which would cause such person physical harm if they attempted to descend the stairs.
2. In order to prevent further harm or injury, occupants who require assistance in evacuating during an alarm are responsible for:
 - Advising the Office Administrator so that a pre-plan can be established;
 - Assisting the Office Administrator in appointing a monitor who will be responsible for the occupant during the evacuation plan;
 - Telling their monitors how much help they may need; and
 - Practicing the evacuation procedures.

MONITORS FOR MOBILITY-IMPAIRED PERSONS

3. HNO, in consultation with the mobility-impaired person, provides these monitors. The Monitor should meet the following criteria:
 - They should be physically capable of performing the task as assigned;
 - They should have no mobility-impairment of their own (e.g., a heart condition, epilepsy, asthma);
 - They should work the same hours as the mobility-impaired person to which they are assigned; and
 - They should work either in the same area or close enough so that they can respond quickly.

EVACUATION – DUTIES IN CASE OF ALARM

4. Monitors should:
 - Attend immediately to the mobility-impaired person(s); and
 - Follow the procedures noted below.
5. When the alarm sounds:
 - Mobility-impaired persons go with their monitor directly to the predetermined stairwell on their floor, which is located at either end (north or south) of the hall. In the event that this location is inaccessible, another location is the elevator;
 - Contact the local fire department at 911 to specify the location and the number of mobility-impaired persons;
 - Once the main flow of evacuees has passed, the mobility-impaired should leave the building with their monitor, in short stages if necessary;
 - Return to the building only when authorized by the Municipal Fire Chief or by Office Administrator.
